SNOWMOBILE SAFARI IN THREE NORDIC COUNTRIES

Welcome to the longest winter holiday in Europe. 850 kilometres on snowmobile through the most remote and wildest landscapes of Sweden, Finland and Norway. When driving through Norway we will have a taste of Russia too, as we are driving along the Russian border on our way to the goal of the journey - Kirkenes by the Barents sea- the most far east city of Norway.

Day 5: Deep snow region. Breakfast. We are today driving in the most deep snow area of Finland. Do we manage to drive the beautiful route direct north to Tekojärvi - or do we have to take the extra long track via Sodankylä? The God of snow will decide that - and we do not know before the evening of 4th day, the news of the local Sami people. This is life in Finnish forests! The goal of today is Kakslauttanen, dinner and overnight in ice cottages.

Day 6: Breakfast. Driving along the Russian border. Today we are crossing the border of Finland, Russia and Norway. Passing the triangle of borders between Finland, Russia and Norway. Passing the most remote national park of Norway - Upper Pasvik - where several brown bears are sleeping over the winter. Hopefully we do not wake them up...We are driving down this virgin valley, populated by wilderness farms in order to represent Norwegian society along the Russian border.
